## ABOUT US

*Zunilda Gutierrez is a fresh, country, rural, organic and Latin American brand that was born with the intention of exalting Latin women. Inspired by everything present in nature, the land, the countryside, rural life, textiles and of course our roots, which will always be present in each collection, Zunilda explores silhouettes and prints abstracted from memories and the Latin American country lifestyle. The brand was born and works to surprise women with elegant tastes, women who adorn their personality with garments full of detail, colour, flowing and refined; This is why the focus on exclusivity and quality are an important part of each garment, each print is designed and developed exclusively for the brand, the design and manufacture of the garments is carried out by a very talented team.*

*"Since I was very little, the love for fashion has been implicit in me, ever since when I saw my grandmother sew the dresses for me and my sisters, that is why I have always worked in fashion from different perspectives and I have been soaking up knowledge and design and together with a solid team I decided to start this beautiful project that has always been my deepest desire".*
